

Cluster #0

Summary

Cluster 0, from importance channel 0, represents a motif consisting of 4.9 (± 1.0) nodes. The concept is generally associated with an impact of -0.2 (± 1.0) on the prediction outcome.

Properties

No. Cluster Members:30

Channel Index0.0 (0.0)

Aggregated Statistics

Example Elements

Cluster #1

Summary

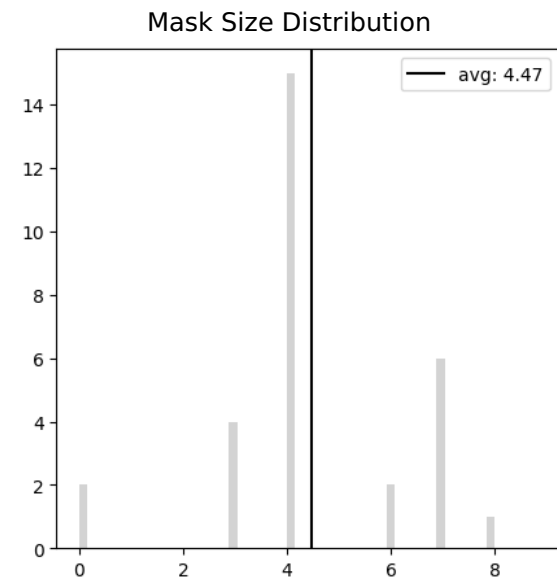

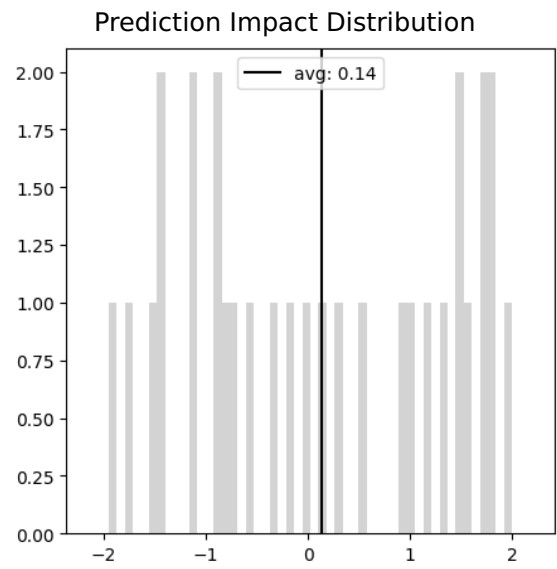

Cluster 1, from importance channel 1, represents a motif consisting of 4.5 (± 1.3) nodes. The concept is generally associated with an impact of 0.1 (± 1.3) on the prediction outcome.

Properties

No. Cluster Members:30

Channel Index1.0 (0.0)

Aggregated Statistics

Cluster #2

Summary

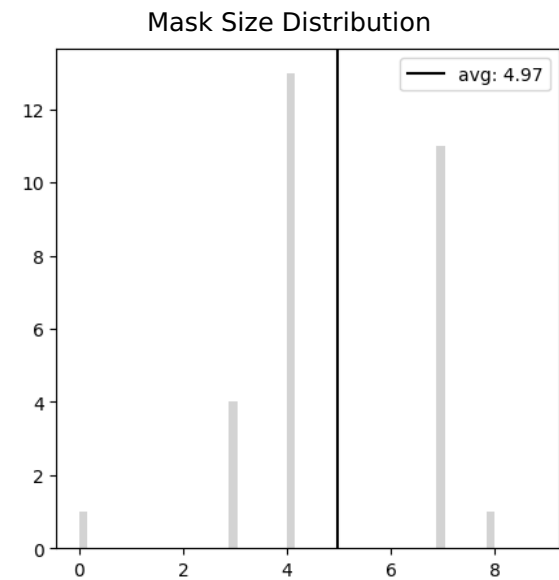

Cluster 2, from importance channel 0, represents a motif consisting of 5.0 (± 1.2) nodes. The concept is generally associated with an impact of 0.1 (± 1.2) on the prediction outcome.

Properties

No. Cluster Members:30

Channel Index0.0 (0.0)
